

■ INFRARED BURNER

LUXOR grills are equipped with ceramic infrared burners which allow for higher heat output and professional cooking results. The infrared energy produced from LUXOR grills is similar to heat produced from the sun. This type of energy is a direct heat source which allows the food to cook faster while making it juicier and more flavorful. This method of grilling has been a favorite among professional cooks and restaurants.

Since there is no need for a heat distributing shield on top of the burner, there is less cleanup. This also eliminates the build-up of grease on heat distribution shields which could result in grease flare-ups.

Ceramic infrared burners cook the food over 50% faster than convection burners this allows you to sear the food faster to keep in all the juices. The LUXOR ceramic infrared burners are adjustable and can be set at a lower setting to accommodate grilling foods that require less heat such as vegetables.

■ INFRARED BACK BURNER

All LUXOR gas grills are available with or without rotisserie. The Infrared ceramic back burner produces intense searing heat which helps lock in flavor and juices. Since there is no secondary heat element to trap grease, flare-ups are virtually eliminated. The back burner could be used in conjunction with the smoker box which will allow for a more smoky flavored food. The rotisserie is equipped with a heavy duty rod and motor. Using a rotisserie could become a part of your lifestyle and not just a weekend event. From chicken to seafood, turkey to roast beef, Ribs to leg of lamb, use the rotisserie like a professional.

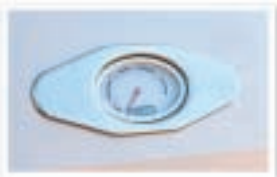

■ SMOKER BOX

Add great wood smoke flavor to all your grilled food using the independent smoker box and burner. The smoker burner is placed between two main burners for an even distribution of the smoke. Use the convenient stainless steel tray to add wood chips of different flavors as you grill. Hickory, mesquite, apple, cherry, pecan and alder are just some of the choices. The smoker box and burner also allows for cold smoking for added flavor.

■ CUSTOMIZED TEMPERATURE GAUGE

The easy to read LUXOR temperature gauge will allow you to operate your grill with ease, like a professional cook.

■ POLISHED EDGES

Welded construction ensures for high quality in structural integrity. Each unit has polished edges adding fine accents to the LUXOR grills

■ BUILT IN CONDIMENT HOLDER

LUXOR cart models are equipped with much needed built-in condiment holder inside each door, allowing easy access to your condiments and BBQ accessories.

■ WARMING RACK

Each unit includes a stainless steel warming rack, it will keep the food warm and add a higher level of low temperature cooking.

■ HALOGEN LAMP

Easy to maintain exterior halogen lamp is designed to provide effective lighting, exactly where it's needed.

FREE STANDING SERIES

LUXOR 30" FREESTANDING GRILL

(AHT-30F)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two Infrared ceramic gas burners producing 44,000 BTUs
- Smoker box with independent burner
- Cabinet doors for easy storage access

LUXOR 30" FREE STANDING GRILL / ROTISSERIE

(AHT-30FR)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two Infrared ceramic gas burners producing 44,000 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
- Cabinet doors for easy storage access

LUXOR 42" FREESTANDING GRILL / ROTISSERIE

(AHT-42FR)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1050 square inches of total cooking area (701 main grilling area)
- Three Infrared ceramic gas burners producing 66,000 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
- Cabinet doors for easy storage access

LUXOR 54" FREESTANDING GRILL / ROTISSERIE

(AHT-54FR)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1370 square inches of total cooking area (910 main grilling area)
- Four Infrared ceramic gas burners producing 88,000 BTUs
- Smoker box with independent burner
- Dual 15,000 BTU Infrared back burners
- Electric stainless steel Rotisserie motor
- Cabinet doors for easy storage access

LUXOR 30" BUILT-IN GRILL

(AHT-30-BI)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two Infrared ceramic gas burners producing 44,000 BTUs
- Smoker box with independent burner

LUXOR 30" BUILT-IN GRILL / ROTISSERIE

(AHT-30R-BI)

- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two Infrared ceramic gas burners producing 44,000 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
